## **University Applications Counseling Office** **2025 UK Summer Programmes**

The majority of summer courses in the UK are typically run by private entities, which use University/College facilities. These programmes are usually not affiliated with the respective University/College where they are held. Terms and conditions for application, deadlines, tuition fees and other information can be found on specific programme websites.

A small sample of courses Athens College and Psychico College students have attended in the past can be reviewed in this document. These programmes are not in any way endorsed by the College and should be treated as mere suggestions, based on experiences of past attendees.
